WHAT YOU GET

- Born-once catalogue — photograph an unmarked item, the AI drafts it; no barcoding marathon.
- Per-line Swiss VAT, Z-report, per-cashier cash drawer, daily close-out.
- Staff & My Day — hours and the daily checkout, built in.
- Add as many cashiers as you like — **free**.

The payback: a per-user ERP like SAP Business One charges for every cashier, every month, plus an expensive implementation partner — easily five figures in year one. Banco is a **fraction of that**, with **no per-user fees** — and adding staff costs nothing.
