

Banco — Pain → Swat Battle Card

Swiss head-shop / CBD ERP · what hurts them → what we hit back with · the walk-in cheat sheet

👤 = how much it hurts /10
🎯 = how well we answer it /10

LEAD WITH #3, #4, #7 — high pain + we crush them today (the live demo). **Sell the VISION on #1** (biggest pain & moat, designed not shipped — don't over-promise). **#2 (banking) you can't fix** — but "Swiss-native, cash-bulletproof, audit-ready" is exactly what a debanked shop needs to hear.

#	PAIN (THEIR WORDS)	👤	SWAT — MODULE · STATUS	🎯
1	Compliance & traceability "One bad lab number and I'm shut down." 1% THC, lab certs, lot/batch, audits	10	Seed-to-sale (farm → batch → lab_test → trace_event) + lab_report vision (snap a cert → THC%/lot/lab№) DESIGNED	4 → 9
2	Banking & payments ⚠️ unverified for CH "My bank keeps closing my account." debanking — real abroad, NOT yet confirmed in CH; ask each shop	9?	Not a bank — we harden the forced-cash life: per-cashier drawer, Swiss QR-bill, audit-ready books PARTIAL	5
3	Unmarked / loose stock "Half my goods have no barcode and never will."	8	Sell-to-seed catalog + camera scan + photo → product AI (Snap & fill) BUILT	9
4	Swiss VAT minefield dine-in 8.1 / takeaway 2.6, ≥20-seat cap, tobacco/alcohol always 8.1	8	Per-line VAT split + Z-report — no US POS does it BUILT	9
5	Can't advertise smokable CBD is under TabPG (law, Oct 2024) = tobacco ad rules ✓verified; + Google/Meta bans	8	La Piazza (owned community channel, not paid ads) + print QR → reviews + member KB BUILT	8
6	Thin margins ✓verified: flower €10/g → CHF 2.50/g in months (2017), now a commodity	7	Partial: loyalty/CRM + attach/upsell + one Swiss stack vs 4 foreign subs PARTIAL	5
7	Staff & till accountability "Who's short in the drawer, who worked when."	6	HR (system of record) + per-cashier drawer + My Day timesheet BUILT	8
8	Age-restricted sales "Selling 18+ goods without getting burned."	6	18+ flagging at POS (product_class) — a TabPG legal duty ✓ SHIPPING NOW	8
9	Reorder / stockouts "What do I restock, and when?"	5	Reorder (stock ≤ min) + supplier fields + reference catalog BUILT	6
10	Isolation "I figure out compliance & sourcing alone."	5	KB + La Piazza community (stickers → members → Swiss CBD knowledge base) BUILT	7

🎁 **BONUS — the pains not fully felt yet:**

B1 "Adult-use is coming and I won't be ready." → seed-to-sale readiness = a story nobody else tells.

B2 "My tools are all USD & English." → one Swiss-native stack (franc, law, DE/FR/IT). The meta-pain.

B3 "My webshop and till are two worlds." → Artemis Premium bridge (Banco item → La Piazza listing), ~80% wired.

B4 "Cash + small high-value product = invisible shrink." → drawer variance + audit trail.

Status: **BUILT** = demo today · **SHIPPING NOW** · **DESIGNED** = vision · **PARTIAL** **ONE SWISS STACK, NOT FOUR FOREIGN APPS.**
