

ANGELO KENEL

SAP PI/PO Integration Consultant — Interface Mapping & Middleware Specialist

Beckenried, Nidwalden, Switzerland | +41 79 828 2841 | theSAPspecialist@gmail.com
[linkedin.com/in/theSAPspecialist](https://www.linkedin.com/in/theSAPspecialist) | Swiss-Canadian dual citizen | English (native), German (B1/B2), French (A1)

PROFILE

SAP integration consultant with 15+ years designing and delivering SAP PI/PO interface and middleware solutions across finance, manufacturing, logistics and retail. Hands-on expertise in interface mapping, message routing and connecting SAP to third-party non-SAP systems via SOAP, REST, sFTP and IDoc adapters, ABAP proxies and iFlows. Recent work spans SAP PO 7.4/7.5, S/4HANA and Azure-based iPaaS. Known for transparent delivery — from proof-of-concept through to fully documented production hand-over — and for working effectively across multinational, multi-language project teams.

EXPERIENCE

SAP PI/PO Lead — Azure + S/4HANA Integration

Jul 2019 – Jan 2024

Swiss Life, Zürich, Switzerland · Permanent role

- Developed web services, iFlows and iCos primarily on SAP PO 7.5; configured SOAP, REST and sFTP adapters to connect IFRS finance applications to external non-SAP systems.
- Led the proof-of-concept and roadmap to migrate SAP PI/PO middleware onto a Microsoft Azure cloud-based platform for SAP service interfaces.
- Built a scalable Azure solution (MS Graph, APIM, Logic Apps / iPaaS) for secure transmission of encrypted bank and payroll documents for finance and HR teams, using certificate-based and SAP OAuth 2.0 client/server connections and ABAP proxies.

Founder & Independent Integration Consultant

2015 – Present

Ecolution GmbH, Switzerland · Own consultancy — international SAP contract engagements & software development

- **Current project** — designed, built and deployed [La Piazza \(lapiazza.app\)](https://lapiazza.app), a full-stack production marketplace platform — solo, end to end. Stack: FastAPI/Python, PostgreSQL, Keycloak authentication, Caddy, Docker Compose on Linux VPS. Features include auctions, rentals, events, payments and Telegram/WhatsApp notification integrations; bilingual (EN/IT).
- Through Ecolution GmbH, contracted and billed the international SAP integration engagements listed below (Germany, Luxembourg, France), maintaining hands-on architecture, development and deployment skills across SAP and modern web/cloud stacks.

SAP PI/PO Lead Developer — CRM Integration

Jan 2019 – Jun 2019

Deutsche Börse Group, Luxembourg · via Ecolution GmbH

- Built iFlows in Eclipse NWDS on SAP PO 7.4 with XML-SOAP and JSON-REST adapters to integrate SAP CRM with the firm's in-house banking application; designed new ESR and Integration Directory objects for synchronous scenarios.
- Secured HTTP connections and created Service Interface ABAP proxies in the CRM backend for RESTful calls to a custom KYC (Know Your Customer) in-house API.

Integration Project Manager — GIS Integration

Sep 2018 – Dec 2018

CMA-CGM, Marseille, France · via Ecolution GmbH

- Delivered two complex booking interfaces end to end on a mission-critical contract, connecting CMA's legacy system through the SAP Process Orchestration RESTful API adapter.
- Ran a successful PoC and UAT integrating the geocoder.api.here.com API for address enrichment (latitude/longitude) into SAP Transportation Management via the Application Interface Framework (AIF).

SAP HCM ABAP & Basis Technical Support

Jun 2018 – Aug 2018

ManpowerGroup, Eschborn, Germany · via Ecolution GmbH

- Drove the technical transition of an HCM support team from German-language to English-based support for incoming external service providers — working bilingually across the handover.
- Transferred integration knowledge covering content servers, RFC connections, security protocols and change management across six SAP systems and several non-SAP platforms.

SAP ICC SPOC / Integration Project Manager

Mar 2016 – Dec 2017

Nestlé, Frankfurt, Germany

- Single Point of Contact for the Integration Competency Centre, overseeing multiple projects connecting SAP and non-SAP global systems and managing end-to-end messaging scenarios on SAP PI/PO middleware.
- Accountable for planning, template configuration, security, change management, service-pack upgrades, testing, cut-over and production support across SAP Basis, ABAP, BODS, BW, SolMan, APO and S/4HANA.
- Instrumental in a Nestlé Globe Award-winning project team delivering a global mission-critical de-investment programme spanning 20+ local markets.

SAP Integration Consultant / Technical Support

Mar 2014 – Feb 2016

Nestlé Nespresso, Lausanne, Switzerland

- Managed and tuned high-volume messaging on AS Java SAP PO 7.4 with NWDS, SLD, SAP Hybris, CRM, Retail, APO and BW HANA, using ALE/IDocs, BDocs, RFCs, iFlows, web services and file adapters for omni-channel processes.
- ICC-certified Change Management coordinator for SAP IdM Identity Management and the CTS Change & Transport System.

SAP Integration Projects / Business Suite Consultant

Nov 2012 – Feb 2014

Nestlé, Vevey, Switzerland

- Built and tested interface and global messaging prototypes — technical specs, canonical mappings, payload routing rules and performance troubleshooting industrialised across multiple regions.
- Delivered Nestlé's O2C Order-to-Cash Mobile Web App from design to production using SAP workflows, ALE/IDocs and XI; awarded 3rd Prize in the 2014 Nestlé Innovation Award.

SAP Data Migration Lead / SAP ByDesign

Jul 2010 – Sep 2012

Utopia Inc, Chicago, USA

- Led teams of 4–6 on data-migration projects using SAP BODS, ABAP, LSMW, IDocs, SQL and ECC 6.0; delivered a successful SAP pharmaceutical greenfield migration (FI, MM, SD) for H.D. Smith.
- Applied Six Sigma for status reporting, defect tracking and earn/burn analysis across client-facing engagements.

SAP XI/PI Upgrade Project / Integration Specialist

Aug 2009 – Jul 2010

Nestlé, Glendale, USA

- Root-cause analysis, ABAP debugging, trace-log analysis, OSS-note implementation and SolMan RFC connection correction for trusted internal SAP systems.
- L2 escalation across Europe, the Americas and Asia for incidents and messaging migration during the R/3 4.7 → ECC 6.0 upgrade using Nestlé's ITIL and GBSL methods.

ERP Administrator / SAP Business One

Feb 2007 – Jun 2009

MAN Diesel, Oakville, Ontario, Canada

- Implemented client/server SAP network infrastructure and managed budgets, sourcing, risk/impact analysis, technical specifications and installations.

TECHNICAL SKILLS

SAP Integration: PI/PO 7.4 & 7.5, Process Orchestration, ESR/Integration Directory, iFlows, NWDS, SLD, SAP AIF, ALE/IDocs, BDocs, RFC, ABAP proxies, canonical mapping, message routing.

Adapters & Protocols: SOAP, REST, sFTP, file, HTTP, web services, WSDL, OAuth 2.0, certificate-based auth.

SAP Platform: S/4HANA, BW HANA, BODS, SolMan, CRM, APO, Retail/Hybris, IdM, CTS; modules FI/CO, MM, SD, HCM, PM, TM.

Cloud & Web: Azure (APIM, Logic Apps, MS Graph, iPaaS), FastAPI/Python, PostgreSQL, Keycloak, Docker, Caddy, Linux, REST API design.

Tooling & Methods: JIRA, ServiceNow, DevOps, M365, Agile, ITIL, Six Sigma, change & cut-over management.

EDUCATION & CERTIFICATION

- SAP — Solution Consultant Certification (North Sydney, Australia): mySAP BI / Business Warehouse, SAP R/3 4.6C, SAP BW 3.0.
- SAP — Application Consultant Certification (Toronto, Canada): ABAP Workbench, SAP R/3 Release 4.0.
- Mohawk College, Hamilton, Canada — 3-Year Computer Systems Co-Op Diploma.
