BONUS

Re-test weekly. Watching them climb IS the
rebuild.

Shoulder rules — read first

1. **Pain-free range only.** Stretch/burn = good. Sharp pinch = stop, no ego.
2. **Neutral grip** (palms facing) overhead. No behind-neck, no heavy flat bench.
3. Warm it first (broom), feed it every session (face pulls).
4. *Smart-training, not medical advice. Real injury? Get it looked at.*

Warm-up • 5–8 min

~~Easy movement~~ 2–3 min

March on the spot, step-ups, or the bike — get the blood moving and a light sweat going.

☐  easy

☐  hard

☒  just right

☐  other

that was good -- i used some empty dumbbell bars in my hands

~~Broomstick shoulder pass-throughs~~ 2 × 10

Broom wide in both hands, slowly raise it up over your head and back behind you, then return. Leonardo's measured motion.

Why: opens & warms the shoulder safely before you load it.

 [Watch how](#)

Flora: narrow grip if tight

☐ 😊 easy

☒ 😞 hard

☐ 🔥 just right

☐ 🖋️ other

my left shoulder needs more range

✓ **Band pull-aparts** 2 × 15

Hold a band in front, arms straight, pull it apart across your chest, squeeze your shoulder blades.

Why: the daily "shoulder vitamin" — wakes the rotator cuff, fixes the hunch.

▶ **Watch how**

Flora: a towel works too

☐ 😊 easy

☐ 😞 hard

☒ 🔥 just right

☐ 🖋️ other

<https://youtu.be/osRimvxXlKQ?si=NGJzQ7-MzZgQCGfy> was worth

✓ **Bodyweight squats + hip hinges** 2×10 + 1×10

Squats: sit down & stand up, no weight.

Hinges: soft knees, push hips back, hands slide down thighs.

☐ 😊 easy

☐ 😞 hard

☒ 🔥 just right

☐ 🖋 other

2x then another 10 squats with dumbbells

The Workout • full body

Straight sets • slow down / controlled up • rest 60–90 sec • 2 reps in the tank.

1. ~~Goblet Squat~~ 3 × 10

Hold one dumbbell at your chest with both hands. Sit down like into a chair, stand back up tall.

Works: legs, glutes, core. **Why:** staying strong getting off chairs & floors — independence itself.

 [Watch how](#)

Flora: no weight — sit-to-stand from a chair

☐  easy

☐  hard

☒  just right

☐  other

good video good exercise

2. ~~Romanian Deadlift (RDL)~~ 3 × 10

Dumbbells in hands, soft knees, push hips BACK (not down), lower the weights down your legs till the hamstrings stretch, stand tall.

Works: hamstrings, glutes, low back. **Why:** the hinge that protects your back. *Deadlifted yesterday — keep LIGHT.*

▶ [Watch how](#)

Flora: light/no weight, small range

☐ 😊 easy

☐ 😞 hard

☒ 🔥 just right

☐ 🖋 other

3 sets a little too much maybe but i did it

~~3. One-Arm Dumbbell Row~~ 3 × 10 / side

One hand & knee on the bench. Other hand pulls the dumbbell up to your hip — like pull-starting a lawnmower.

Works: back, lats. **Why:** pulling strength & posture.

▶ [Watch how](#)

Flora: light, brace on a chair

☐ 😊 easy

☐ 😞 hard

☒ 🔥 just right

☐ 🖋️ other

excellent video by jeff

~~4. Neutral-Grip Overhead Press~~ 2–3 ×

8

Dumbbells at shoulder height, **palms facing each other**. Press up only as high as feels good, lower slowly.

Works: shoulders, triceps. **Why:** shoulder-safe overhead strength. **Stop at any pinch.**

▶ [Watch how](#)

Flora: seated, light, tiny range

☐ 😊 easy

☐ 😞 hard

☒ 🔥 just right

☐ 🖋️ other

maybe built in timer for 8-10 reps start at 0 and go till 45 secs and rest for 15 seconds and repeat with start time that has 10 second delay to get in position

✓ **5. Face Pulls** 3 × 15

Anchor a band at face height. Pull both ends toward your face, elbows high & wide, squeeze the back of your shoulders.

Works: rear shoulders + rotator cuff. **Why:** 👉 **THE shoulder-saver.** Never skip.

▶ **Watch how**

Flora: light band — gold for everyone

☐ 😊 easy

☐ 😞 hard

☐ 👉 just right

☐ 🖋 other

don't have a machine at old maybe a spanner rubber i could do it but i don't have that equip

✓ **6. Dumbbell Floor Press** 2 × 10 • optional

Lie on the floor (knees bent), a dumbbell in each hand, press straight up. The floor stops your elbows — that protects the shoulder.

Works: chest, triceps. **Why:** chest strength without the bench-press shoulder risk.

▶ [Watch how](#)

Flora: skip or very light

☐ 😊 easy

☐ 😞 hard

☒ 🔥 just right

☐ 🖋 other

i did it a little inclines too with the shoddy bench i have but was ok 1x only

Finisher • optional, 5–8 min

~~Modified Burpee~~ 3 × 8

Step (don't jump) back into a plank, step back in, stand. No push-up needed.

Why: the ultimate "can I get up off the floor" test.

 [Watch how](#)

Flora: hands on a counter (incline)

☐  easy

☒  hard

☐  just right

☐  other

1x 8 rep modified -- already past 1 hour mark

~~Dumbbell Swing~~ 3 × 12

Hinge at the hips (like the RDL) and swing the dumbbell to chest height using your HIPS, not your arms.

Why: power & conditioning, easy on the joints.

 [Watch how](#)

☐ 😊 easy

☐ 😞 hard

☒ 🔥 just right

☐ ✎ other

was good did 12 swings 1x only

~~Farmer's Carry~~ 3 × 30 sec

A dumbbell in each hand, stand tall, walk the room. Grip hard, brace the belly.

Why: the most real-life exercise there is — grip strength predicts a long life.

[▶ Watch how](#)

Flora: lighter, shorter walk

☒ 😊 easy

☐ 😞 hard

☐ 🔥 just right

☐ ✎ other

need heavy set for this i have to switch dumbbells or get a heavy set or carry 10kbs 2x with 10 each last time with 5kg each

Cool-down • 5 min

~~Broom pass-throughs • 2×10~~

Finish the shoulder where you started it.

comment / question...

~~Stretch~~

Hamstrings, hip-flexors, gentle chest/shoulder — hold each 20–30 sec, breathe in.

did a few would be good to have video for every thing

~~2 min slow breathing~~

Long exhales — the windpipe feeling.
Bring the engine down.

doing the the box breathing

Overall — talk to Tigs

Fill this, then **Print → Save as PDF** and send it back. Recipe → do it for real → report → we tune Day 2.

Version done? (20 / 45 / 60 min)

60 min plus 20 so too long over all and i did not c

How did it go overall? Energy after, what to change for Day 2?

good overall no machine so the face plan needs fixing and little shorter over all may 1 hour but watched the videos so maybe just slow first time. the top stats i could not fill in
